

# BASE SECURITY INFRASTRUCTURE UPGRADE WORKS AT HOLSWORTHY BARRACKS

HOLSWORTHY, NSW

BASE SECURITY UPGRADES

## PROJECT

Base Security Infrastructure Upgrade Works at Holsworthy Barracks

## CLIENT

Augility  
 Ghina Zaydan 0423 328 007

## DDRIC CONTACT

Douglas Blacket 0419 434 074

## DESCRIPTION

Holsworthy Barracks is an Australian Army military barracks, located approximately 25km from the Sydney CBD.

The scope of works of this project involves upgrading the base security infrastructure at Holsworthy Army Barracks front entrance in order to take the main entrance of Holsworthy to a higher security standard and increase staff/user safety.

The scope includes the replacement of security bollards, installation of new CCTV systems, access control, and intercom systems to the following structures:

- ▶ Front gate main guard house.
- ▶ Front gate entry lane hut.
- ▶ Front gate entry lane hut.
- ▶ Turnstile and swing gate.

## HIGHLIGHTS

- ▶ Custom designed bollards to accommodate security equipment, while maintaining same footprint as removed equipment, reducing downtime and disruption to the client.
- ▶ Providing new double height visitor pass return bollard at exit lane to enable safe return of visitor passes from both cars and over height trucks without needing to leave vehicles, at no additional cost to the client.
